

CORE

HOMELAND SECURITY & COUNTER TERRORISM

The threat of terrorism demands a new level of commitment and readiness inside the world of Law Enforcement. This means greater preparedness, more knowledge, and increased training requirements. Our new Homeland One Core Curriculum is here to put you ahead of the learning curve, meeting needs before they become mandates. In a progressive way, each course serves as the stepping stone for what's to come. Work your way from the Awareness Level up to highest level of preparedness!

AWARENESS LEVEL TRAINING/ COURSE IV: INCIDENT FACILITIES FOR HOMELAND DEFENSE

947-1004

In this course, we describe each of the principle facilities used in conjunction with the ICS, as well as their purpose and use. Viewers of this course will be able to identify which facilities may be located together at an incident as well describe how the various incident facilities are used and managed to support the incident or event.

AWARENESS LEVEL TRAINING/ COURSE V: INCIDENT RESOURCES FOR HOMELAND DEFENSE INCIDENTS

947-1005

In this course, Homeland One weds incident command concepts to effective strategies regarding terrorism response. Even those who already know the Incident Command System will be compelled to rethink their role when it comes to terrorism preparedness.

AWARENESS LEVEL TRAINING/ COURSE VI: COMMON RESPONSIBILITIES ASSOCIATED WITH ICS ASSIGNMENTS

947-1006

In this course first responders will learn the list of actions to be accomplished prior to leaving an incident or event, as well as the steps involved with incident check-in and in the incident demobilization process.

EMERGING ISSUES IN HOMELAND SECURITY TERRORISM IN THE MIDDLE EAST, PART 2: TERRORISM & RADICAL ISLAM II

161-0053

This lesson provides an understanding of the three major fundamental movements within the Sunni Tradition, identified by country of origin: Wahhabism (Saudi Arabia), Muslim Brotherhood (Egypt) and Salafism/Jihadist-Salafism (Egypt-Afghanistan).

SUPPORT

CSI FORENSICS

ENHANCEMENT OF PARTIAL IMPRESSIONS IN BLOOD

160-0009

A crime scene can yield numerous clues. Although impressions in blood can be identified, the enhancement of partial impressions can mean the difference between an unsolved case and breaking it wide open. This episode of *CSI Forensics* explores a few techniques for enhancing partial impressions in blood. A number of well-established and cutting-edge techniques are both explained and demonstrated. Real-world cases are discussed where these techniques were responsible in providing investigators the vital evidence they needed to ultimately solve the case.

GEOGRAPHIC INFORMATION SYSTEMS, PART 2: TOOLS OF CRIME ANALYSIS AND THEIR BENEFITS

056-0002

We've seen it on TV and in the movies but in reality, how can GIS help you? This second installment in our GIS series focuses on understanding how geographic information systems can benefit police departments in the analysis of crime and other essential data. We'll also see how this technology has been implemented in departments around the country — and how those departments are putting it to good use.

MED AID

PART 4: AUTISTIC PATIENTS/FIRST RESPONDERS & JOINT INJURIES

040-0009

This special program deals with special medical issues for first responding police officers. Originally designed for Emergency Medical Technicians, this training is important for anyone who may have to work with a trauma victim until medical personnel arrive. This program looks at persons with autism and how you may interact with them. We'll also review one of the top occupationally acquired injuries for first responders: joint injuries.

LETN CLASSICS

WILDERNESS SERIES, PART 2: TACTICAL TRACKING

185-0131

This training module provides pertinent information on aggressive man-tracking techniques that assist in the recovery of armed and dangerous fugitives operating in remote areas.

TRIGGER POINTS: OVERCOMING TRAINING INJURIES

176-2153

Myofascial release, more commonly known as "trigger point therapy," is a hands-on technique that provides sustained pressure to myofascial restrictions in the connective tissues in order to eliminate pain and restore motion. Join us as we explore this therapy as applied to training injuries with guest Russell Tanji.

GRAFFITI ... WHAT IT REALLY MEANS

176-2168

Do you have a gang problem in your area? How would you know? Our program on graffiti provides information on how to read the "writing on the wall" and determine who is in your area recruiting.
